

a complete  
power solution  
individually tailored  
by experts

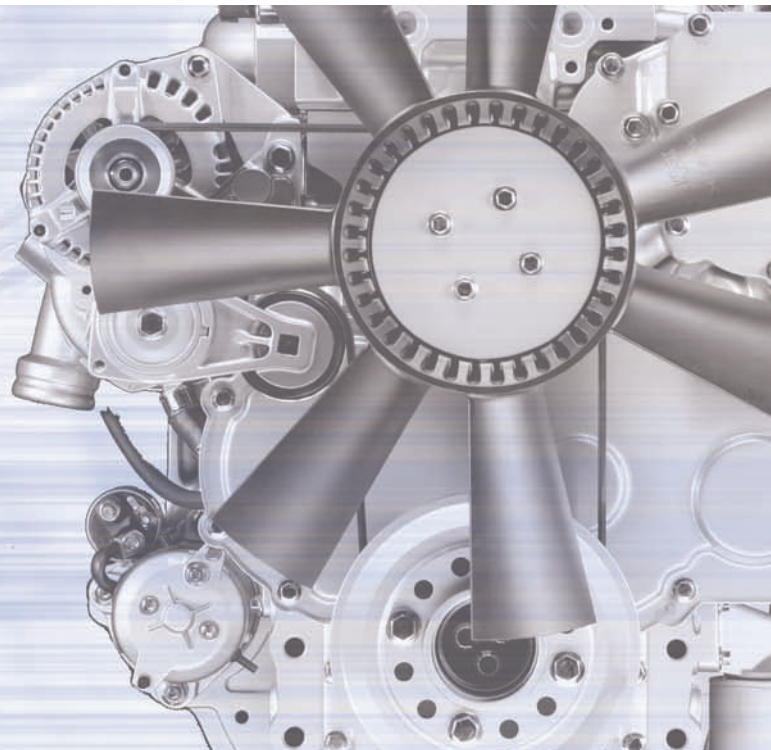

# EngineRange

Every day, hundreds of Perkins engines leave the production lines to join equipment manufacturers worldwide.

Across all sectors, wherever equipment is required to push, pull, turn, carry, dig, lift, pump, move or generate energy, Perkins engines lead the way. Not only where utmost reliability and rugged power counts, but also where environmental demands require Perkins engines to be quieter, cleaner, longer-lasting and even more economical.

Our customers know their Perkins unit is more than just an engine - it's a complete power solution that has been individually tailored for them by experts. A solution that also provides the security of being supported by our global network of distributors and dealers every day of the year.

## IndustrialPower

### 400 Series
